

CAROLON

HEALTH SUPPORT HOSIERY

Medically Correct and Fashionably Attractive

MEDIUM SUPPORT CLASS I

Used to address the many factors causing heaviness or fatigue in the legs. Improves circulation to help prevent varicosities and swelling.

Available in knee, thigh, full, and standard pantyhose. Circular knit silk-like fabric made with nylon and spandex gently massages the legs from ankle to thigh. Two-way stretch and wide comfort top band to keep stockings in place. Specially designed reinforced floating heel virtually eliminates constriction of the toes. For added comfort, Health Support panty hose have an absorbent cotton panel and an extra wide waistband. Run resistant fabric and control top.

COLORS

SOCKS

Excellent support in a dress weight soft ribbed fabric. Special non-rolling, non-binding comfort top keeps socks in place. Flared toe and heel pocket.

COLORS

CUSHION FOOT

Soft cotton padding knit into sole of foot. Comfort cushioning made for everyday wear. Available in Short or Regular sizes.

COLORS

FIRM COMPRESSION CLASS II

Relieves heavy and aching legs. Treatment and prevention of varicose veins. Helps control swelling and complications from chronic venous insufficiencies.

Available in knee, thigh, regular and full panty hose. Specially designed foot with reinforced floating heel eliminates the need for old fashion open toe styles. Stocking automatically adjusts to different foot sizes. Color matched fashion toe, two way stretch and comfort top. Panty hose have a cotton panel, extra wide waist band and comfortable interior panty seam. Amazingly sheer and lustrous fabric.

COLORS

SOCKS

Firm ribbed fabric with comfortable non binding top that will not roll. Flared toe and heel pocket. Makes legs feel great all day. Long lasting soft fabric is comfortable against the skin.

COLORS

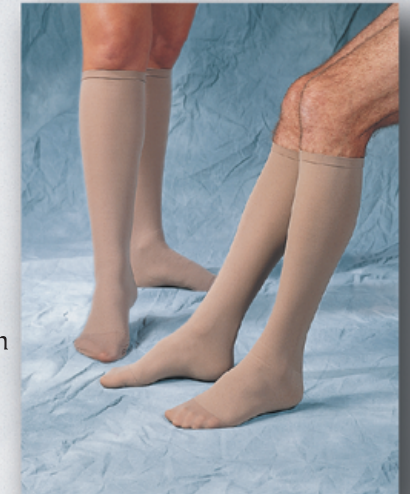

EXTRA-FIRM COMPRESSION

Physician Advice Recommended

CLASS III

For the treatment of chronic venous insufficiency or venous ulcers. For the treatment of varicose veins and following sclerotherapy and vein ligation. Should be used on the advice of your physician. Available in knee length style. Constructed from a unique fabric that is cooler, sheerer and softer than traditional hose at this compression level. Unique foot design eliminates the need for open toe style by utilizing Carolon's special floating heel. Two Way stretch.

COLORS

MULTI-LAYER STOCKING SYSTEM

Professional Use

Combines unique under stocking with outer stocking to make Class II and Class III compression easy to apply and attractive to wear. Available in many sizes in sheer and sock style. Machine wash/dryer safe.

COLORS
